VOLUME 8—1982

EMPIRE STATE REPORT
WEEKLY

Author-Subject Index

About this index . . .

This is an author-subject index to Volume 8, the 1982 volume of *Empire State Report*. Volume 8 consisted of 30 issues, published every Monday January through June, and twice monthly during the balance of the year except August.

Author entries **appear in traditional form, e.g.:**

Dawson, David, Waiting for Nine,Mile Two, 1:7+.
———, They have been working on the railroad, 4:61+.

The long dash indicates that the author of the article so marked was the same as that of the immediately preceding article. The notation "1:7+" indicates Issue Number 1 (January 18, 1982), beginning on page 7 and continuing (+) on succeeding pages.

Subject entries appear as bold-faced listings on separate lines, followed by the titles of articles on that Subject, e.g.:

Gotbaum, Victor
Bargaining for voters, 28:289+.

Hence, an individual whose name immediately precedes a title on the *same line* is the *author* of the article. An individual whose name appears on a *separate line* is the *subject*, or is mentioned significantly, in the article(s) whose title(s) follow(s).

***"See"* and *"See also"* refer to subject entries in this index.**

The 1982 index to *Empire State Report* was prepared by Randy Hooks of New York City.
